

## CUT-524 Black metal rust preventive emulsifying oil

### 【Product Performance】

CUT-524 Black Metal Rust Preventive Emulsifying Oil is specifically designed for inter-process rust prevention of black metal. This product exhibits excellent inter-process rust prevention effects on materials such as iron, cast iron, iron alloys, steel, and other black metals. It has a low tendency to emit odors and provides rust prevention for 7-15 days, making it an ideal choice for inter-process rust prevention of black metal.

200L/ drum

18L/drum

base oil

after dilution with water

### 【product parameters】

testing items	parameters
appearance of the base oil	brown, transparent
density	0.88-0.92 g·cm <sup>3</sup> (20°)
concentration	≥80

PH value	8±0.5
appearance of the diluted solution	milky white

**【usage method】**

1. Before using this product, clean the fuel tank or reservoir thoroughly. It is strictly prohibited to mix with other oils. Stir evenly before use.
2. Dilution Ratio: Concentrate : Water = 1 : (1-20).
3. The working fluid concentration should not be lower than 5. Adjust the appropriate working fluid concentration according to different rust prevention requirements.

**【packaging specifications】**

18L per plastic drum, 200L per large iron drum
