

Grinding oil DK-736A1

【 Performance and use 】

DK-736A1 grinding oil is specially developed for optical glass edging, is a new generation of core oil, the selection of refined base oil, imported additives, the product is clear and transparent, colorless and tasteless, higher efficiency. Suitable for Mitsujin, Times, Saida, Shonan, Tatano, Nakamura and other models.

【 Product advantage 】

- colorless and odorless, to provide a better production environment;
- Good lubricity, cooling property, powder settling property;
- does not contain toxic chemicals, no corrosion to glass, no skin damage;
- good lubricity, improve efficiency;

【 Main technical parameters 】

| | |
|-----------------------|-------------------------|
| appearance | Clear, colorless liquid |
| Flash Point 0C | 125 |
| Viscosity Cst At 400C | 3.9-4.5 |
| Copper Corrosion Test | Up to standard |
| Water Content | 0 |
| Aromatic Content | <1 |
| Ignition pointt 0C | 150 |

【Instruction】

The oil can be recycled directly.

【Packaging】

18L/ barrel, 25L/ barrel, 200L/ barrel.
