

Environmental degreasing agent QX-30

【Performance and use】

QX-30 environmental degreasing agent colorless transparent liquid, strong deterring power, can quickly remove all kinds of glass surface oil, wax, asphalt, rosin and other organic attachments, non-destructive to metal and glass surface, with easy cleaning, volatilization fast, drying fast, low boiling point, high recovery rate, safe use and other characteristics.

【Product Features】

- Odor: Slightly aromatic odor.
- composition: From a variety of non-toxic, extremely toxic alkane fine synthesis.
- Performance: strong cleaning power, very slow volatilization rate, can replace trichloroethylene the most environmentally friendly products.

【Main technical parameters】

appearance	Transparent liquid
PH value	8 ~ 10
density	1.25-1.3
Service temperature	The < 50 °C
validity	6 months
Use environment	Best used in single-barrel immersion or ultrasonic systems

【 Instruction 】

Usage: wash the material in liquid phase, with ultrasonic cleaning effect is better.

Environment: suitable for indoor and outdoor work. The product should not be in contact with acidic substances and be well ventilated Precautions: Do not touch skin, eyes, if contact, rinse with water as soon as possible, direct contact with the product, wear gloves to protect. If you are sensitive, see a doctor as soon as possible. Do not swallow. If swallowed by mistake, seek medical attention immediately. Waste should be recovered by recycling companies and not discarded into the environment.

【 Packaging 】

25L/ barrel
