

Inner Circle Cutting oil DK-700

【 Performance and use 】

Dremfu DK-700 Inner Circle Cutting oil is specially developed for glass and ceramic inner and outer circular cutting (cutting) processing, composed of mineral oil and various additives, low viscosity, high flash point, no irritating odor, clear and transparent, and has excellent performance for cooling, lubrication, cleaning and powder settlement required by the processing process.

【 Product advantage 】

- Use imported additives.
- Good lubricity, cooling property and powder settling property.
- contains no toxic chemicals, no irritating odor, no corrosion to glass, no skin damage.

【 Main technical parameters 】

Colour	Clear, white liquid
Flash Point °C	>115
Viscosity Cst At 40°C	11.8-12.5
Copper Corrosion Test	Up to standard
Water Content	0
Aromatic Content	<1
Acid Value Mgkoh/g	<3

【 Instruction 】

1. This product is a direct use lubricant, do not need to add water, directly into the recycling can be used.
2. When it is used for the first time, the circulating system of the fuel tank should be carefully cleaned to ensure that there is no water in the whole system.
3. After a long period of use, the glass powder in the tank should be removed in time.
4. The service life can be up to one year, usually can be added to use.

【 Packaging 】

18L/ barrel, 25L/ barrel, 200L/ barrel.
