

## Glass cutting fluid DK-760C8

### 【Performance and use】

DK-760C8 Glass cutting fluid is specially developed for the grinding and cutting of mobile phone cover plate. This oil is a water-soluble fully formed cutting fluid, with excellent cooling and powder settling properties, which can provide high surface finish and good antibacterial properties, and greatly improve the service life of the oil. Suitable for Beijing Jingdiao, Dayu, and other models.

### 【Product advantage】

- does not contain harmful substances, environmental protection does not harm the skin.
- effectively prolong the service life of the grinding head.
- does not contain mineral oil, animal and plant oil, the product will not corrupt, long storage and service life.

### 【Main technical parameters】

Project		technical index	test method
5% diluent	appearance	Colorless and transparent	Visual inspection
	Defoaming property	Up to standard	GB/T6144
	Rust resistance	Up to standard	GB/T6144
	PH value	8.2 + / - 0.5	PH meter, PH test paper

### 【Instruction】

1. Dilution of the stock solution with 20-30 times tap water or deionized water is the working liquid, or depending on the difficulty of processing and the actual situation.
2. During use, the working liquid can be supplemented at a concentration of 3-5%.

### 【Packaging】

18L/ barrel, 25L/ barrel, 200L/ barrel.

**【Note】**

1. This product should not be mixed with other emulsions, semi-synthetic liquids, and fully synthetic liquids, because even if the system contains a small amount of rotten residual liquid, it will affect the use effect of the new liquid.
2. the production batch is not the same, the cutting fluid may have color differences, does not affect the normal use.
